

# Risk Controls & Legal Safeguards

Designed to minimize legal exposure and ensure compliance at scale.

## 1. PRIVACY & DATA PROTECTION CONTROLS

### Data Minimization

Collect only necessary data, separation of personal identifiers.

### Strong Anonymization

Face & license plate blur, sensitive attribute removal.

### Pseudonymization

Controlled identifiers, access-restricted mapping.

### GPS Privacy

Location generalization / reduced precision.

### Access Control

Role-based access, least privilege, multi-factor authentication.

### Encryption

Encryption in transit (TLS 1.2+), at rest (AES-256).

## 2. GOVERNANCE & COMPLIANCE

### DPIA Completed

Data Protection Impact Assessment completed and documented.

### LIA Completed

Legitimate Interest Assessment completed and documented.

### Privacy Policy & Hunter Guidelines Enforced

Company-wide policy enforcement and mandatory compliance.

### Defined Data Retention Policy

Clear retention schedules and automatic purge after expiration.

### Incident Response Process

Established breach response plan and notification procedures.

### Full Audit Logging

All activities logged immutably for audit and compliance.

### Third-party Control Requirements

Vendors are vetted and bound by data protection obligations.

## 3. DELETION & PROPAGATION FLOW

## 4. CONTRACTUAL PROTECTIONS (B2B)

### Data Processing Agreement (DPA)

GDPR Article 28 aligned data processing terms.

### Purpose Limitation

Use of data limited strictly to AI training purposes.

### No Re-identification Clause

Contractual prohibition on re-identification.

### No Redistribution Clause

No resale, sublicensing, or further sharing.

### Audit Rights

Right to audit and receive compliance reports.

### Liability & Indemnification

Clear allocation of responsibility and indemnification.

## 5. KEY METRICS & SLA COMMITMENTS

Anonymization Accuracy

≥ 98%

QA False Negative Rate

< 10%

Deletion Response Time

≤ 48h

Data Lineage Coverage

100%

Platform Uptime

≥ 99.9%

Security Monitoring

24/7

Your compliance. Our responsibility.

# Legal-Ready Data. Built for Trust.

End-to-end privacy by design for compliant AI training and data usage.

## Privacy by Design

Built-in safeguards at every step.

## Global Compliance

Aligned with GDPR, AI Act, CCPA/CPRA, PIPA and more.

## Risk Minimization

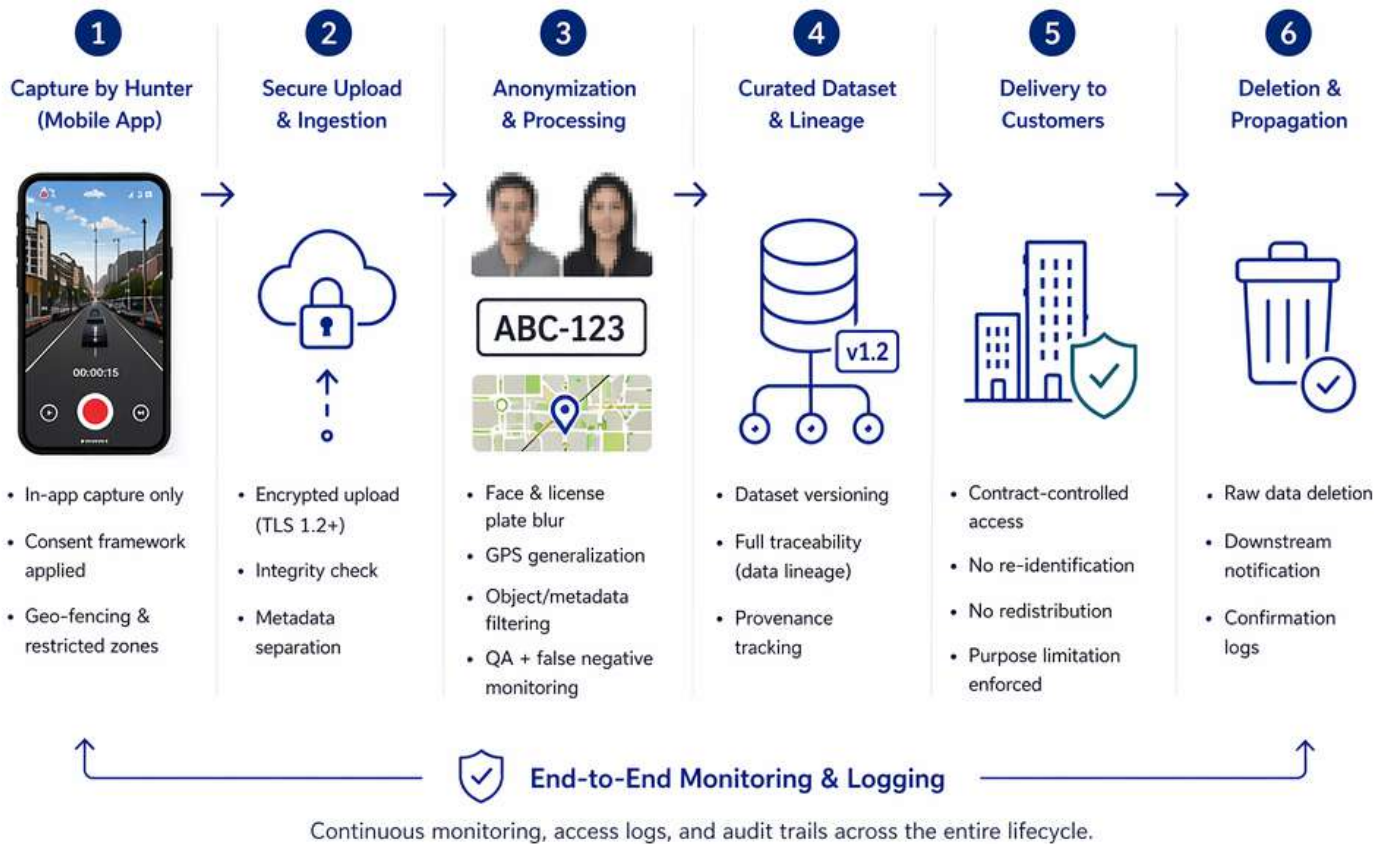

Strong anonymization, traceability and deletion controls.

## Audit & Transparency

Documented, provable and audit-ready.

## DATA LIFECYCLE OVERVIEW

## GLOBAL REGULATORY ALIGNMENT

### GDPR (EU)

- Lawful basis & consent
- DSAR (Data Subject Access Rights)
- Data minimization & storage limitation
- Secure transfer (SCC)

### EU AI Act

- AI system lifecycle risk management
- Data governance & quality
- Documentation & traceability
- Transparency obligations

### CCPA / CPRA (California)

- Notice at collection
- Opt-out of sale/share
- GPC signal support
- Rights: access, delete, correct, limit use
- Risk assessment (from 2026)

### PIPA (Korea)

- Lawful transfer overseas
- Privacy policy disclosure
- Rights: access, correction, deletion
- Security & breach notification

### Other Jurisdictions

- Country-specific capture policies
- Local law compliance
- Geo-fencing & access control

We don't just collect data.  
We engineer trust at every step.
